# Consent to Participate in Research Data Carpentry Pre-Workshop Survey

## **Introduction and Purpose**

My name is Erin Becker and I am the Associate Director of The Carpentries. Thank you for volunteering to take part in our research study, which is about understanding the effectiveness of our workshops. To participate in the study, you will complete a short survey about your skills and approach related to our workshop content before and after your workshop. Depending on your location, the survey will be 16-18 questions long and will take approximately 5-10 minutes to complete.

## Confidentiality

Your responses will be recorded anonymously. If you respond via email, your IP address will be registered; however, your responses will remain anonymous. Additionally, you will be asked to create a unique identifier. This identifier will be confidential to you and will help us compare your results with the post-survey.

### **Risks and Benefits**

There are no direct risks or benefits to you from filling out this survey, and no compensation. We hope to use these results to improve workshops for future learners.

### Consent

You are not required to take this survey to participate in our workshop. You may quit the survey at any time or skip any item other than those required to correctly sort your responses.

If you have any questions about the study, please contact Erin Becker, Associate Director of The Carpentries at ebecker@datacarpentry.org or eribecker@ucdavis.edu or Megan Welsh, Assistant Professor of Education at the University of California, Davis at megwelsh@ucdavis.edu.

If you have any questions about your rights or treatment as a research participant in this study or would like to provide input about this research, please contact the University of California at Davis' Institutional Review Board (IRB) at (916) 703-9151, IRBAdmin@ucdmc.ucdavis.edu, or 2921 Stockton Blvd, Suite 1400, Room 1429, Sacramento, CA 95817.

| * 1. Do you consent to taking this survey? |  |
|--|--|
| Yes  |  |
| * 2. Are you 18 years of age or above?     |  |
| Yes  |  |
| ○ No                                       |  |
|  |  |

|  |                   |                  |                   |            |              |

| Data Carpentry Pre-Workshop Survey   |
|--|
| Demographic Questions  |
| Thank you very much for participating in this survey. We appreciate your input, which will help us to create a diverse, inclusive and welcoming event.   |
| The Carpentries seek to promote a scientific computing community that is an inclusive and welcoming environment for all. In order to further this goal, we hope to understand the makeup of the community and the experiences of individuals within it. The data from this survey will help us to assess the diversity of our community. |
| 17. With what gender do you most identify?   |
| ○ Female   |
| Gender variant/non-conforming  |
| Male   |
| Transgender female   |
| Transgender male   |
| Prefer not to answer   |
